Integrity in science

Prof. Mary Gulumian

It gives us great pleasure to inform you that our Council Member and the President of TOXSA, Prof Mary Gulumian, has received the 2021 IUTOX Lifetime Achievement Award!

The IUTOX Executive Committee created this award to honor “a distinguished scientist who has made lasting contributions to toxicology in countries where toxicology is under-represented”. As her award letter states, her commitment to the field of toxicology and to the many young scientists that she has educated and mentored, her tireless work as a founding member of the Toxicology Society of South Africa, and her key role in hosting the 7th CTDC meeting in Sun City, were just a few of her many achievements that contributed to being selected as the recipient.

Congratulations Prof Gulumian, and thank you for the service to your community and toxicology as a whole.
